HIGH RESOLUTION CAMOUFLAGE

THE NEXT GENERATION IN HIGH RESOLUTION CAMOUFLAGE

This WOOD'N TRAIL® Camouflage pattern has been designed to blend in multiple backgrounds and distances. The multi earth tone color variation of grey, brown, tan, and green, gives the best matching illusion through the changing seasons. Only high-resolution digital photos of the most popular species of trees, leaves and limbs, found in most regions across the country, are presented on this pattern. This multi element design uses different depth resolutions, angles, contrast and shadows, to create an amazing 3D realistic image to make you disappear within nature.
